President's Message

S'n'S began in 1907; the whole production is handled by students-we write music and lyrics, direct, make sets and costumes, collect props as well as act, sing and dance. Any student can participate in one or several areas of S'n'S. That is one of the great things about this group. It provides a chance for students from many backgrounds to create something together. At a highly specialized school like Tech, it is especially important to have an activity like S'n'S. S'n'S welcomes you tonight and hopes you enjoy the show as much as we have enjoyed working on it.
