Special Thanks

Ritu Sahni, Margaret Morrison custodial staff, Schmendrik and his lovely grandmother

Director's Notes

This project has set out to prove that we can come together and create, through a short, intensive, and joyful process, interesting and entertaining theater. I hope that this performance inspires my cast, crew, and audience to participate in the dynamic creation that is theater, and to look to their vision in spite of the usually daunting nature of the practical world. The most virtuous characteristic of humankind, is that *we can create*.
